GRADING

Report cards are issued four times a year. Each division of the school year is referred to as a quarter. The first two quarters make up the first semester; the third and fourth quarters make up the second semester. The letter system used is as follows:

A.... 4 Quality Points B.... 3 Quality Points C.... 2 Quality Points D.... 1 Quality Point F.... 0 Quality Points

Letter grades will appear on the report card according to the following scale: A = 93-100; B = 85-92; C = 75-84; D = 67-74; F = 0-66.

First and second semester grades are calculated by counting each quarter's numeric average as 40% of the semester grade, and the semester exam as 20%. The cumulative grade point average (weighted and unweighted) is determined by semester grades. In determining the cumulative grade point average (weighted and unweighted), all semester grades are included.

RANK IN CLASS

Because of the academic strength of our students, class rank is not considered a notable indication of an individual student's scholastic achievement and is not computed. Instead, weighted grade point average information is available below for comparison purposes.
